Sí are fairies, or immortal beings, who are central characters in the mythology of Ireland. The song title, "Sí Beag, Sí Mór," meaning "Little Fairy Hill, Big Fairy Hill," follows a myth concerning an altercation between two Sí who lived under the hills. For the fretted dulcimer, it is intended that you fingerpick only those notes where there is a tablature number. As usual, where there are several notes being played at once, use a pinch or a drag. On the hammered dulcimer, note the rolling chord, or arpeggio symbols. Begin with the lowest note and go quickly to the highest.
