

SWAP TABLE

At this year's Colorado Dulcimer Festival **Feb. 3 & 4** in Littleton there will be a new feature - a Swap Table. If registered participants have a used instrument in your instrument collection that you would like to sell you may bring it to the festival Swap Table with a sign including relevant information such as the price, description and (most importantly) your cell phone number. If someone wants to buy your instrument, they simply call you and you make arrangements between the two of you to exchange money and instrument(s). The swap table will be in the lobby and will not be staffed since all the interactions are between the current owner and the new owner. All festival participants might want to bring a check book since there might be a good deal on that bowed psaltry (or dulcimer, or mandolin, etc) you always wanted to play! This is not designed for commercial builders or stores, but rather for individuals with instruments to sell.
